Dear Mr. Hundt:

The undersigned, is a customer of Telefonica Larga Distancia de Puerto Rico. TLD has brought superior service at the lowest cost to the Puerto Rico long distance market. For the business sector, the continued vitality of full and fair competition in the long distance market is essential to preserve and enhance these benefits.

As an island economy, Puerto Rico critically depends on long distance service. Consequently, we fully support the efforts of TLD to expand the scope of its international service and facilities. We urge you to expeditiously approve TLD's request for participation in the international fiber-optic networks about to commence operation in the next few months, Americas I and Columbus II, as well as authorize additional circuits. Further delay will unfairly injure TLD expansion in this vital market and deprive Puerto Rican consumers the benefits of competition.

Cordially,

Daniel Casas
